

WORKING FOR PROHIBITION IN QUEENSLAND

Minneapolis, Minn., Dec. 22.—Falling short of making Queensland, Australia, bone dry by but 30,000 votes in its first attempt three years ago, the Prohibition Foundation of America, has begun a campaign in that province which they believe will terminate when the liquor question is again voted on in 1923 there.

W. G. Calderwood, for the past 25 years a leader of the prohibition forces in Minnesota, and candidate for United States senator on two occasions, has been chosen by the foundation to organize the dry forces in Queensland and to wage a ceaseless campaign there. He will remain in the Australian province until the question is voted upon, whence he will journey to India and China, where he also will engage in similar work.

Queensland is about one-fourth as large as the United States. Dry forces brought the liquor question to a vote there three years ago, with the result that prohibition failed by some 39,000 votes, according to George F. Wells, of this city, a member of the foundation.

Subsequently, the United States and Canada have banned liquor. Mr. Wells stated, and in his opinion this makes the prospect for bringing Queensland into the dry column much brighter.

Mr. Calderwood departed for foreign fields last July, and will continue in prohibition work for three years in behalf of the Prohibition Foundation, Mr. Wells stated.
